

16th Annual CENTER FOR CIRCADIAN BIOLOGY SYMPOSIUM

March 2-3, 2026
UC San Diego

Seaside Forum, Scripps Institution of Oceanography

Circadian Time and Metabolism: from Mechanisms to the Clinic

This symposium will address key gaps in circadian biology by promoting dialogue, collaboration, and innovation at the intersection of circadian rhythms, metabolism, cancer biology, and aging research.

TOPICS

Tissue Clocks and Integrated Physiology
Nutrient Timing and Metabolic Homeostasis
Circadian Disruption and Chronotherapeutics
Model Organisms and Molecular Clock
Mechanisms

Presentations on the latest research
Q&A discussions
Networking, collaborating, and reconnecting
Poster session with prizes
Network awards for trainees
